

**HE Space** is a successful international space company. For nearly 40 years, we have been supporting our customers with qualified experts in the field of engineering, science and administration. We are currently looking for a Project Manager to support our customer in France.

## Start-up Project Manager

### Key Tasks and Responsibilities

As part of a NewSpace French startup company established in Toulouse, you will have the following responsibilities:

- To define, to organise and to deliver the ordered nanosatellites in line with the agreed cost, schedule and specifications;
- To supervise procurement of Space Segment sub-elements as required by the project needs;
- To identify and to address business opportunities with private and institutional customers;
- To report (cost/schedule/technical/risks) project status, issues/problems to company executive team;
- To identify needs for new/additional workforces necessary for company growth and goals fulfilment.

### Skills & Experience

You will have the following qualifications and relevant experience:

- More than 5 years of demonstrated space system project management experience across multiple spacecraft flight projects/programs;
- Demonstrated ability to identify and address problems using a proactive, systematic approach;
- Demonstrated ability to negotiate with sub-contractors/partners;
- Demonstrated ability to manage and motivate a team in a fast-moving and complex environment;
- Fluency in English and in French are mandatory.

This job is located in **Toulouse**. We welcome applicants who are available from October 2021 (or as soon as possible thereafter).

If you think you have what it takes for this job, please send your CV together with a letter of motivation (both in English and in Word) to Ms Chiara Grossardi, by clicking on the button "Apply for this job" quoting job **FR-HP-4626** before **15-Oct-21**.

An exciting and dynamic international working environment awaits you!
